Docket No. 98N-1265 72 '99 MAY -3 110:26
Food and Drug Administration

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I have depended upon quality compounded products that my local pharmacies have never provided nor ^{has} my insurance company covered. Please do not limit those of us with special metabolic needs to only what a local pharmacy is willing to ^{provide} ~~cover~~. I recently had reactions to 2 prescriptions of thyroid (same dose) when the local pharmacy changed brands on me. Now I'm having to pay more for Synthroid because I can't trust what is being filled.
